

INTERNAL DEMOCRACY SELF-ASSESSMENT

TOOL # 3

SHORT INDICATOR LIST

Compared with tool # 5, this is a shorter list of indicators in Excel for self-assessment. It converts the assessment to two graphs that visualise strengths and weaknesses and thereby gives the user two quick pictures of what should be focused for improvements in the CSO. In the same tool the users can easily design the plan for improvements on each indicator.

You will find Tool 3 as a separate Excel document
